

INFINITY FLUIDS CORPORATION - HEATER SPECIFICATION SHEET

Please provide as much information as possible about your application, use the control specification sheet to specify heater- temperature and power controls.

FLUID TYPE:

- Water _____ Air _____ Steam _____
 Gas _____ Solution _____ Other _____

FLOW RATE:

- GPM _____ SCFM _____ LPM _____
 SLPM _____ GPH _____

TEMPERATURE RISE REQUIREMENT:

- °F °C
 Inlet Temperature _____ Outlet/Desired Temperature _____

MATERIAL REQUIREMENT:

- Stainless Steel Standard Stainless Steel 316
 Carbon Steel Brass
 Other _____

CONSTRUCTION TYPE:

- NPT Pipe Fittings Welded Quick Change
 Welded Flange Design Welded Flange With NPT Reducer
 Other _____

INLET and EXIT CONNECTION TYPES:

- NPT Fittings Male- 1/8" 1/4" 1/2" 3/4" 1" 1-1/4" 1-1/2" 2" 2-1/2" 3" other _____
 Sanitary Fitting- 1/2" 1" 1-1/2" 2" 2-1/2" 3" 3-1/2" 4" other _____
 Welded Flange Design- 1" 2" 3" 4" 5" 6" other _____
 Other _____

PRESSURE REQUIREMENTS:

- Maximum Pressure Less than 150 PSIG
 Vacuum- _____ Pressure over 600 PSIG- _____

LEAD/ELECTRICAL REQUIREMENTS:

- Standard Industrial Construction (variable per heater design)
 Outdoor Operation (NEMA 4X) Explosion Proof/Hazardous Location
